

Cowboy Midstream, Hiland Crude and Plains Pipeline, announce open season between Dore, ND and Casper, WY

Houston, TX – January 5, 2024 –Hiland Crude, LLC (Double H), a subsidiary of Kinder Morgan, Inc., Cowboy Midstream, LLC, and Plains Pipeline L.P. are conducting an open season for crude oil transportation commitments on the Double H pipeline system, Powell Lateral, and North Rocky Mountain System between Dore, North Dakota and Casper, Wyoming in exchange for volume incentive tariff rates.

The open season will be managed by the law firm of CBL Energy Law, PLLC and will begin on January 5, 2024 and end at 5 p.m. Mountain Time on February 5, 2024. Prospective shippers may review the details of the open season after executing a confidentiality agreement. Confidentiality agreements can be obtained by contacting Elizabeth Kohlhausen at ekohlhausen@cblenergylaw.com

About Kinder Morgan, Inc.

Kinder Morgan, Inc. (NYSE: KMI) is one of the largest energy infrastructure companies in North America. Access to reliable, affordable energy is a critical component for improving lives around the world. We are committed to providing energy transportation and storage services in a safe, efficient, and environmentally responsible manner for the benefit of people, communities and businesses we serve. We have an interest in or operate approximately 82,000 miles of pipelines, 140 terminals, 700 billion cubic feet of working natural gas storage capacity and have renewable natural gas generation capacity of approximately 5.4 Bcf per year with an additional 1.5 Bcf in development. Our pipelines transport natural gas, refined petroleum products, crude oil, condensate, CO₂, renewable fuels and other products, and our terminals store and handle various commodities including gasoline, diesel fuel, jet fuel, chemicals, metals, petroleum coke, and ethanol and other renewable fuels and feedstocks. Learn more about our work advancing energy solutions on the lower carbon initiatives page at www.kindermorgan.com.

About Cowboy Midstream, LLC
